Two-Story Atrium With Full Height Windows

Loggia

IMAGINE THE
POTENTIAL

Offering the ability to remove the curtainwall to create an expansive loggia, providing tenants usable outdoor space adjacent to a two-story atrium.

BRING THE OUTSIDE IN

The opportunity for unique loggia space, overlooking the pocket park allows tenants to experience the outdoors 365 days a year.

The image shows a multi-level office building interior. On the top level, there are glass-walled offices where several people are working. The middle level features a large, open-plan office space with a glass wall that looks out onto a city. The ground floor is a large, open atrium with a wooden floor. In the center of the atrium is a large, circular planter with a tree and other greenery. There are several people in the atrium, including a woman sitting on a chair and a man walking. The building has a modern design with large windows and a glass facade. The text "AN INTERCONNECTED EXPERIENCE" is overlaid on the bottom left of the image.

An architectural rendering of a modern building's interior courtyard. The scene features a multi-story building with large, rectangular windows. In the foreground, there are lush green bushes and trees. The central area is a bright, open space with a glass-walled structure that appears to be a cafe or a common area. Inside this structure, there are people, including a man in a white shirt and a woman in a patterned dress. The overall atmosphere is bright and airy, with natural light streaming in from the windows.

A wide-angle photograph of the interior of Ground Central Café. The space features a long, industrial-style counter with a metallic, textured finish. Behind the counter, there are menu boards for coffee and espresso, a display case filled with various pastries, and a refrigerated display case containing bottled beverages. The ceiling is made of dark, patterned tiles, and the floor is light-colored wood. To the right, there is a bar area with wooden stools and a large window. The overall atmosphere is modern and industrial.

GROUND CENTRAL

Start your day at Ground Central Café with direct access into the building lobby.

TAKE A BREAK AT THE PARK

A landscaped pocket park at your doorstep where you can enjoy our summer music series and a variety of food purveyors.

LOCATION

1166 Avenue of the Americas
(between 45th & 46th Streets)

YEAR CONSTRUCTED

Building completed 1974
Lobby upgraded 2017, designed by Gensler

ARCHITECT

Skidmore, Owings & Merrill

BUILDING SIZE

1,556,174 RSF

BUILDING CONSTRUCTION

Composed of structural steel & concrete
with aluminum curtain wall system.

BUILDING HEIGHT

600 Feet. 44 Stories with two below
grade levels.

FLOOR SIZES (Typical Square Footage)

- Floors 14-21: 40,240 RSF
- Floors 2-12: 39,075 RSF

CEILING HEIGHTS (Slab-to-Slab)

- Typical Floor: 12'0" - 12th Floor: 15'6"
- 2nd Floor: 20'3" - 32nd Floor: 15'6"

FLOOR LOADS

50 lbs per SF live load. Some areas are
100-200 lbs pre SF live load.

PASSENGER ELEVATORS

- 26 total elevators.
- Modernization completed 2020.
- Elevator systems feature destination dispatch technology.

FREIGHT ELEVATORS

Two freight cars serve all floors (Concourse to
44th Floor).

TRUCK ELEVATORS

- Two Dover hydraulic elevators with 60,000 lb capacity serve the street level to concourse.
- Elevators located on 46th Street east of the pocket park amenity.

HEATING / COOLING

- Heating provided by ConEdison Steam
- HVAC includes central plant with two 2,200 chillers that serve all floors.
- Five-cell cooling tower.
- Supplemental Cooling: 1,230 tons of condenser water and 200 tons of Glycol available for tenant use.

BUILDING MAINTENANCE SYSTEM

- Digital upgrade in 2021, equivalent to new construction Building Maintenance System.
- Johnson Metasys controls the 13th floor glycol system.
- Energy Management System, IES/MACH used for real time energy consumption, building operation and curtailments.

ELECTRIC

- Switchgear room includes five separate services.
- Best practices include bi-annual full shutdown, servicing and infrared scanning.
- Floor capacity is 6 watts psf

BUILDING SAFETY

Redundant fire command stations and code-compliant sprinkler system.

TELECOM & FIBER

-  Wired Score Certified Platinum with multiple redundant points of entry (POE).
- Neutral Distributed Antenna System (DAS).
- Fiber providers and carriers: Verizon, Spectrum, Lightpath, Lighttower, AT&T, Level 3, Cogent

COMMUTATION & ACCESS

- Walk Score: 100 – Walker’s Paradise
Surrounded by an abundance of neighborhood amenities including fine dining and casual restaurants, grab-n-go, hotels, social cubs, fitness, banks and shopping. Popular landmarks such as Rockefeller Center, Bryant Park, and Grand Central are just minutes away.
- Transit Score: 100 – Rider’s Paradise
Excellent connectivity to public transit (subway, bus, commuter rail) and parking facilities. Steps from Grand Central Terminal which provides direct access to Metro-North and LIRR as well as numerous subways.

 Long Island Rail Road  Metro-North Railroad  AMTRAK  7  4  5  6

Minutes to Penn Station, Port Authority and additional subways.

TECHNICAL SPECIFICATIONS

BUILDING AMENITIES

- Conference Center:
The 12,000 SF conference space, managed by a first-class operator, features a large conference-style meeting room that can be utilized in full or split into three private rooms or breakout spaces, as well as a traditional boardroom. The space, which features state-of-the-art technology, can host up to 200 guests and is perfect for annual meetings, conferences, hybrid meetings, and events. Unique details such as cell-phone pods and a comfortable conversation lounge provides the luxury of space to congregate or ensure privacy and discretion.

- Pocket Park:
Landscaped outdoor plaza between 45th and 46th Street offers an abundance of outdoor seating and is host to multiple social events throughout the year.

SECURITY/ACCESS

- Standard Hours of Operation are Monday through Friday, 8am-7pm. In addition, 24/7 Security Guard & Engineering coverage.
- Access Control System integrated with turnstiles and destination dispatch elevators.
- QR code readers for Visitor Management.
- DVR video surveillance.

ART

The Julie and Edward J. Minskoff Collection includes works by Pablo Picasso, Jean-Michel Basquiat, Roy Lichtenstein, and contemporary figures including Yayoi Kusama, Damien Hirst, Takashi Murakami, Jeff Koons, Kaws, Claes Oldenburg, Coosje Van Bruggen, Harmony Korine and Tom Otterness. Edward Minskoff curates properties with extraordinary artwork, creating a distinct aesthetic for the entire property and further positioning the buildings as leading office destinations.

SUSTAINABILITY

AIR

- HVAC systems equipped with MERV-15 media filters.
- Mechanical systems increase the supply of outdoor air and continuously cycle fresh, filtered air throughout the building.
- Building staff uses low VOC emitting products including solvents, carpets, adhesives, paints and coatings to maintain optimal indoor air quality.

BUILDING HEALTH & SAFETY

- High frequency cleaning and sanitization using green cleaning products.
- Construction materials are LEED compliant, recycled and responsibly sourced.
- Quarterly response drills for emergency preparedness and workplace safety to building occupants and coordinates.

ENERGY

- New BMS (Building Maintenance System) control system with automated alarms and work order dispatching.
- LED lighting systems throughout building common areas to increase energy efficiency.
- Advanced lighting control systems with occupancy sensors.
- All windows on tenant floors allow for natural daylight and are paired with operable blinds/- shades for energy savings.
- Real-time energy management platform (Aciex Pulse) monitors energy use in 5 minute intervals.

RECYCLING

- Color-coordinated recycling procedure minimizes waste sent to landfills.
- Annual waste audits identify areas for waste diversion improvement and develop corrective plans.
- Free recycling training sessions to tenants.

WATER

- Existing toilets, urinals, faucets, and showers upgraded with low-flow fixtures, performing 20% above code requirements for water conservation.
- Filtered drinking water fountains with filling stations in all tenant build-outs.
- Cooling towers disinfected twice a year. Testing for legionella bacteria every 90 days.

CERTIFICATION PIPELINE (2023 Completion)

- LEED Silver
- FitWell
- Well Health and Safety
